

Offer

10% until 30th of June 2017

for all HEICO SPORTIV sports exhaust systems and Selected Sound®

Technical data and prices you will find on our homepage under the respective MODEL - EXHAUST SYSTEMS - SELECTED SOUND

EXHAUST SYSTEMS

A joy to the ear, a hallmark and a quest in one: HEICO SPORTIV sport exhaust systems. Discreet and cultivated at low engine revs, vigorous and sporty when power is needed. An entrancing sound experience! And when that's not enough, Selected Sound® can notch up the intensity further at the push of a button. As an alternative to the classic twin-pipe exhaust system, HEICO SPORTIV offers a four-pipe exhausts system. All HEICO SPORTIV exhaust systems, manufactured from high-quality stainless steel, naturally comply with relevant EU noise and exhaust gas regulations and have an EG-ABE operating permit.

Selected Sound® is HEICO SPORTIV's answer to the automotive industry's downsizing trend and is a technology specially developed by HEICO SPORTIV for a superior sound experience.

Selected Sound® combines with the optional HEICO SPORTIV's e.motion® performance enhancement module to derive the formula of an efficient four-cylinder engine with the performance of six cylinders and voluminous sound of a hefty 8-cylinder engine.

Ordering and installation can be done directly from us or through any Volvo dealer.

Offer for end customers valid until 30.06.2017
